PROSECUTION IN STOKES CASE IS WARNED BY JUDGE AGAINST ITS IMPROPER METHODS

CHICAGO, March 6.—Less than two hours after it had begun its cross-examination of W. E. D. Stokes, wealthy New York apartment hotel owner, on trial charged with conspiring to defame his-young wife in an effort to obtain a divorce, the presecution was warned this afternoon by Judge W. N. Gemmill that it had probably destreyed its case.

The court was so emphatic in its demunciation of the methods of Milton D. Smith, assist instate's attorney, that after warning the prosecutor that a court of review probably would throw out a conviction of Mr. Stokes, he added be was not certain but what the trend of the against the aged millionaire.

Without producing the postal cards for the trial record, Mr. Smith, in a rearing, angry voice demanded that Mr. Stokes give a 'yes,' or 'no' answer as to whether he had are trained that Mr. Stokes give a 'yes,' or 'no' answer as to whether he had sent missives to Mrs. Stokes, the Stokes children, Muriel and Jimmy, and Mrs. Arthur Scott Miller, Mrs. Stokes' mother, denouncing Mrs. Stokes for alleged association with negro men. His face blazing with anger, and clinching the arms of the witness stand. Mr. Stokes stained forward and huried an equally wrathful' in rever did,' as Mr. Smith read ceal and the standard of the standard and the standard of the standard of the standard of the Assonia hotel, and was not that why Mrs. Stokes for Hr. Stokes angrily shouted 'no,' although an objection by his attorney was sustained. Judge Gemmill's hombshell then exploded.

"If this line of questioning were to be continued, no matter what the vertilet would be, I would have to set at aside,' said the court."

"The reading of those postards has destroyed his case already, in my opinion. It was wrong in the standard of the set of the stoke,' said the court."

INTERNATIONAL LAW ENFORCEMENT.

INTERNATIONAL LAW ENTOUGHEST.

If m. Jacques Bureau told Parliament the other day that he did not believe it was possible to absolutely stop samggling. But the Minister is not throwing up his hands on that account and excusing himself from trying to make things as difficult for the free traders as possible. On the contrary, Parliament this week gave approval to the contrary, Parliament this week gave approval to

contrary, Parliament this week gave approval to two treaties expressly aimed at curbing illust trade between Canada and the United Stats. One treaty provides for co-operation between the officers of the two countries. Where there is reason to suppose that a sungulging expedition is planned it will be the business of officers in the country from which the goods are to be taken to notify the officials on the other side of the line. Clearance papers are also to be refused hereite to a vessel sailing for a destination where it can-not legally carry its cargo.

The other treats will make extradiable particles who commit violations of the law for the suppression of the trade in narcotics. There will, and ought to be, hearty public approval of these provisions for "team play" on the part of the authorities of the Dominion and the Republic with the object of curbing the gaven prospersion careers of run runners, drarg pediclars, and smugglers generally. Violation of the highly profitable business. The international boundary has been made a barrier behind which which the profit of the part of the properties of the properties of the profit of the part of these whose business is to prevent it.

THE OTHER SIDE OF THE CASE.

THE OTHER SIDE OF THE CASE.

Calgary reports are that the new brokerage firm which is supposed to prance into the ring and bank the fruit combine and the combine of the co

changest and in satisfactory quality is a horse of a different color.

But why not co-operative marketing in the interests of consumers if we are to have co-operative marketing in the interests of producers? This is a free country, outside the bodiers of the anti-combine law. If fruit producers are combine to market their products to the best can combine to market their products.

Putting the case in the way it is more likely work out; if British Columbia capitalists organize a "growers" agency" to sell B.C. fruit in Alberta, why not Alberta apital create an orfrom British Columbia or any other part of the continent where it can be got cheap and of good quality?

Alberta has thus far seen only one side of the

Alberta has thus far seen only one side of the Alberta has thus far seen only one sace or the co-operative marketing question—the producers' side. The fruit situation invites attention to the other side—the consumers' side. It is the undoubted right of producers to combine if they want to so long as they keep clear of the law, It is equally the right of consumers to combine if they want to so long as they keep within bounds of the statutory prohibitions.

THE "HOPPE" COAL FIELDS.

Apparently Government officials, Parliament and the public have been setting an exaggerated value on the coal deposits in what has come to be known as the Hoppe area. This treat, lying in the Joothills of the Hockies along the Sanoly River and Sheep Creek, about middway between the Apparent of the Hockies along the Sanoly River and Sheep Creek, about middway between the Joseph Sheep Creek, about middway between the Apparent of the Hopper of the H

Built in From the case and the could be a considered which would give the required outlet for profits and the provide ships from the considered with the considered wi

NO "SLASHING" ALLOWED

win the able assistance of the Lador mea-bers, the Independents, and the lone Conservative, the Government majority on Thursday declared that there will be no slashing of sessional indem-nities and Ministerial salaries, by the decisive

that there will be no slashing of sessional indemnities and Ministerial salaries, by the decisive vote of 42 to 11.

There will be no surprise anywhere at the result of the prolonged debate. It was clear from the first that the Opposition had no more chance of getting a motion of that kind through the Legislature than they had of out-voting the other combined groups in the house. There were not the wigwams of the magnetic models of the combined groups in the house. There were not the wigwams of the magnetic models and the salaries of the proposition that they should grad less from the cash hox.

The applicacy offered for this lineaup in defenses the salaries of the salaries of

March is not always as bad as its name.

Spring is coming. The Nova Scotia coal

"Eggs is eggs" does not apply for commercial purposes. Before being bought or sold they must be graded. As the egg season is at hand dealers will do well to remember that legal requirement.

There is only one kind of punishment possible for Mrs. Elva Mason of London, Ont., and her precious son, convited in a court there of beating a baby in an inhuman manner. If that illustrious pair do not get the lash and get it plenty London ought to petition the Provincial Government for a new magicturae.

Premier King told the monater delegation of Maritimers that practically all British goods causeing Canada have been coming through Canada ports since Mr. Fielding a couple of years ago granted a ten per cent. reduction in the argo granted at the per cent. reduction in the particular Maritime "problem" was solved before it was presented, and further restriction of trade in obviously unnecessary.

You own your own home. That's fine. But there's a mortgage at 7%. That's all right. You are reducing it steadily each year.
Yes, but are you protected on that —is your mortgage covered by life insurance? A mortgage is a poor asset to leave wife and dawle with only a curse instead of a blessing to a widow and children without income.

blessing to a widow and children without income. Think it over. We recommend Mutual Life Insurance for all young men who are carrying mortgage on their homes. Mutual life insurance is insurance at net coat. We participating, 20-pay life policy as most suitable for the interpretation of the most suitable for the interpretation of the most suitable for the interpretation of the most suitable for the grade of the most suitable for the most suit

On Sunday!

TAKE a nice, bright Sunday, for instance—just the right tinge to the air and a blueness to the sky that sends a real thrill down your spine. A stylish, wellfitting suit with all the proper furnishings to go with it and you're in trim for a stroll down Whyte or Jasper avenues. That's the feeling you get with our select spring suits, priced from \$19.75 to \$37.50.

On Monday!

It's a real feeling to step into your office every Monday morning attired in a select suit that bespeaks the correct style-most skillful tailoring-choicest taste all the way through. Naturally you're going to dispose of a day's work a whole lot better. Let your next suit be a Ramsey select suit.
